

## PRESS RELEASE

### New Business Development Team Was Appointed for *Career T.E.A.M.*, LLC

North Haven, Connecticut January 2011 -

*Career TEAM* is looking forward to a prosperous 2011. The company will continue its dominance in Workforce Development! Philadelphia, our new flagship operation, is a culminating factor to *Career TEAM*'s advancement into new arenas.

Looking forward into 2011, our fearless CEO, Chris Kuselias has assembled a team in charge of branding *Career TEAM* as the nation's leading provider of Workforce Development Training and Employment services. We plan to not only present the success of *Career TEAM*, but paint the "WOW" factor image to all who work within Workforce Development. The name *Career TEAM* will not only be known in the cities we currently occupy but others who are in need of our enlightening spirit.

*Career TEAM* Development will be tasked with overseeing the development of *Career TEAM* Government Management projects, Consulting and Training engagements, and Non-Profit divisions. We plan to increase the number of cities in which *Career TEAM* currently operates Workforce Development projects, training and speaking engagements to outside organizations and associations. In 2011 a Social Media and Public Relations Campaign will be designed to promote our catalog of training/consulting programs, and furthering the development of our brand and the new Non-Profit division.

A new referral system will begin to be implemented through *Career TEAM* Development. The Business Development Team is tasked to uncover new funding opportunities and enter new markets.

Make no mistake, *Career TEAM* is on the rise and the sky's the limit. It will take the power, enthusiasm, and creativity of the entire company to break new ground and continue the life changing mission that *Career TEAM* was founded upon!
